RE: Natural Rubber Latex Free Products

To Whom It May Concern:

ACell, Inc. is a leading developer, manufacturer and marketer of next-generation regenerative medicine and wound care devices. We take great pride in producing an outstanding medical device and ensure they are of the highest quality, efficacy and safety.

MatriStem Wound Matrix and MatriStem Multilayer Wound Matrix are sterile, porcine-derived, naturally-occurring lyophilized extracellular matrix sheets that maintain and support a healing environment for wound management. MatriStem devices are manufactured from urinary bladder matrix (UBM) sheets, which are derived from porcine bladders. ACell products are processed without materials, components or packaging containing natural rubber latex. All manufacturing procedures are conducted under stringent controls and distributed devices are assured to be free of natural rubber latex.

ACell is FDA registered and ISO 13485 certified and maintains a strict quality management system program to ensure full compliance with all regulatory and accreditation standards. Patient safety and care is our number one priority and we take great pride in producing the highest quality, safe, and effective products.

Please contact me at any time if you have any questions or need additional information, BarryBrainard@acell.com (410) 953-8558.

Regards,

Barry W. Brainard
Senior Director of Quality
